Unique "Pivot and Tilt" Action

Don't mistake our PT Max[™] Belt Trainers for conventional belt trainers. Thanks to our unique 'pivot and tilt' design, the unit reacts and compensates instantly to belt misalignment, ensuring that the belt stays away from the structure and the material stays on the belt. The result: a continuous solution to mistracking problems that cause damage to the belt and conveyor structure. The PT Max delivers superior training action that makes it easy to keep even the most troublesome belts on track and on the job permanently.

Features and Benefits

- Works in multiple applications. Top side or return side belts. Heavy duty or medium duty operations. Wet or dry conditions. Belts mistracking to one side or both sides. Whatever the issue, PT Max has the answer.
- **Custom-built.** Each conveyor is different, so the PT Max is specifically built to meet your requirements.
- Long service life. Uses standard, on-site rollers so inventory can be used for replacement. Also, with our special bearing, Flexco guarantees a 5-year 'No Risk' Performance Guarantee.
- Works with mechanically fastened and vulcanized belts.

Specifications and Guidelines

Selection Guidelines			
Model Application Range			
PT Max™ Top Side	Heavy-duty belts up to 3000 PIW max (generally over 3/4" (19mm) thick) Belt width 24" – 60" (600 – 1500mm)		
HD PT Max™ Top Side	Heavy-duty belts up to 6000 PIW max tension. Belt width 48" – 84" (1200 – 2100mm)		
PT Max [™] Return Side and V-Return	Heavy-duty, higher tension belts up to 3000 PIW max. (generally up to 1" (25mm) thick)		
HD PT Max [™] Return Side and V-Return	Heavy-duty belts up to 6000 PIW max tension. Belt width 54" – 84" (1350 – 2100mm)		

Conveyor Criteria	PT Max [™]	Heavy Duty PT Max [™]	Super Duty PT Max [™]
